1. Identity of the substance

1.1.	Common name	[REDACTED]		
1.2	Chemical name in an internationally recognized nomenclature (e.g. IUPAC, CAS)	CAS 1912-24-9 (atrazine)		
1.3	Trade name of the substance (if applicable)			
1.4	EINECS Code (If available)			
1.5	CAS number	1912-24-9 (atrazine)		
1.6	Customs tariff code or harmonized system customs code of the World Customs Organization	atrazine HS: 2933.6999-030 [REDACTED]		
1.7	Other number (if applicable, specify)			
1.8	Main impurities / contaminations for which the PIC regulation applies: name, CAS number and content in percent			
1.9	Purity of substance (%)			

2. Identity of the preparation

2.1	Commercial or common name of the preparation	[REDACTED]		
2.2	Customs tariff code or harmonized system customs code of the World Customs Organization	3808.9390		
2.3	Name, CAS number and content in percent for each substance in the preparation for which this regulation applies.	atrazine	1912-24-9	[REDACTED]

3. Information concerning the export

3.1	Importing country	Cameroon		
3.2	Exporting country	Switzerland		
3.3	Probable date of first export (dd.mm.yy)	29.05.12		
3.4	Category (industrial chemical or pesticide) and use in importing country, if known	Field trials		
3.5	Expected yearly export quantity ¹	[REDACTED]		
3.6	Name, address and other information on importer	[REDACTED]		
3.7	Name, address and other information on exporter	[REDACTED]		

¹If a preparation containing one or more substances of Annex 1 is to be exported, please give the amount of export quantity of the preparation.
